Portfolio: ameh-john-brymo-portfolio.onrender.com

PROFESSIONAL SUMMARY

Computer Science student and Full Stack Developer experienced in building modern, responsive web applications and database-driven systems. Skilled in React, JavaScript, Node.js, Express.js, and PostgreSQL, with hands-on experience developing REST APIs, JWT authentication, inventory systems, dashboards, and responsive websites. Passionate about software engineering, problem-solving, and building practical solutions.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Responsive Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: PostgreSQL, SQL, Database Design

Tools: Git, GitHub, Render, Cloudinary

PROJECTS

Inventory SaaS — Full Stack Inventory Management System

React | Vite | Node.js | Express.js | PostgreSQL | JWT | Render

- Built a full stack inventory management system for products, categories, and stock.
- Implemented JWT authentication, protected APIs, CRUD operations, search, filtering, and reporting.
- Developed dashboard analytics and PostgreSQL database integration.
- Deployed the application using Render.

Restaurant Website

HTML5 | CSS3 | JavaScript

- Developed a responsive restaurant website with modern layouts and interactive functionality.

- Optimized the interface for desktop and mobile devices.

Personal Portfolio Website

HTML5 | CSS3 | JavaScript | Git | GitHub | Render

- Designed and deployed a professional developer portfolio showcasing skills, projects, services, and contact information.

EDUCATION

B.Sc. Computer Science

National Open University of Nigeria (NOUN) | 2024–2027

DEVELOPMENT EXPERIENCE

- Full stack web development through personal and academic projects.
- REST API and backend development with Node.js and Express.js.
- Frontend development with React, JavaScript, HTML5, and CSS3.
- PostgreSQL database development and SQL.
- JWT authentication and protected application routes.
- Git/GitHub version control and Render deployment.
